

# Timing RFID Label

The family of Timing RFID Labels works with UHF technology (860-960 MHz ) and allows timing all kinds of sporting events.

Dipole's TIMING labels are the thinnest and most precise on the market. They are available in thicknesses from 0.25 to 5 mm. They have been designed to obtain a reading fidelity rate of 99.99%. All our Dipole TIMING are made with humidity resistant adhesives.

- Some of its benefits are the possibility of being customizable with logo and information, fiability for any type of timing, resistance to rain, sweat and high temperatures.

## Product benefits

- Posibilidad de seguimiento del producto
- Totalmente personalizable
- Resistente: lluvia, sudor, temperaturas
- Servimos en todo el mundo

## 01

## Detalles del producto

<b>Frecuency</b>	UHF (860-960 MHz)
<b>IC type</b>	Impinj / NXP / Higgs
<b>EPS Memory</b>	Depending of IC Family
<b>Material</b>	Foam 0,8 / 1,5 / 2 / 3 / 4 / 5 mm
<b>Standards</b>	ISO 18000-6C Class 1 Generation 2
<b>Adhesive</b>	Humidity resistance
<b>Size</b>	Fully customizable Ej: 100 x 30 mm
<b>Temperature</b>	-40 °C / +85 °C

# 03

## Product features

Customizable label designed to achieve the best solution for your needs.

Printable on all standard RFID printers worldwide.

Different internal IC depending on the memory that is required.

Multiple delivery formats for greater comfort and according to need.
