

Jewelry RFID Labels

Dipole Jewelry is a family of small and sensitive RFID tags specially designed for jewelry.

You can efficiently manage jewelry products, and watches with an individual identification of each piece, obtaining in a simple and efficient way their traceability, from the origin to the final customer, with a global vision of the supply chain in real time.

Improve the time spent in inventories, shipments, sales, etc. and optimize stocks, reduce management costs, eliminate human errors, and increase the safety of parts

Product benefits

- Possibility of tracking the product
- Fully customizable
- Easy to use and application
- Worldwide delivery

01
