**Overview**

**Frequency Band**
UHF 860 - 960 MHz

**Chip**
Impinj Monza 4D

**Antenna Dimensions**
50 x 50 mm / 1.969 x 1.969 in

**International Standard**
ISO 18000-6C, EPC Class 1 Gen 2

**Industry Segments**
Logistics

**Applications**
Asset Tracking
Package tracking

**RoHS**

**REACH**

**Frog 3D®**

High performance product for supply chain applications

Our Frog 3D® inlays and tags are designed for pallet and case level applications offering high performance in supply chain management applications. Frog 3D® products have a small, cost-efficient True3D form factor with complete orientation insensitivity providing consistent performance even on challenging materials. High performance Frog 3D® inlays deliver excellent read range and are compatible with the Impinj Monza 4 IC family.

Frog 3D® tags and inlays are produced using leading-edge inlay assembly technologies. Monitoring every step in the production process, from the antenna to the final assembly of the inlay, guarantees optimal quality products.

Our inlays and tags are compliant with ISO 9001:2015 Quality Management and ISO 14001:2015 Environmental Management, which ensure a reliable and state-of-the-art product that meets a variety of application needs, enhancing RFID usage for difficult-to-tag materials.
